

PRIMECORE ENGINEERING & INDUSTRIAL SERVICES

TECHNICAL CAPABILITY & COMPANY PROFILE — DEMO DOCUMENT

DEMO PORTFOLIO NOTICE: PrimeCore Engineering & Industrial Services is a fictional demo entity created specifically for AfixTech's agency development portfolio. All operational metrics, project case studies, and corporate details within this profile represent illustrative capability samples.

1. EXECUTIVE SUMMARY & POSITIONING

PrimeCore provides specialized engineering, industrial maintenance, technical procurement, installation, and project support for organizations operating across infrastructure and industrial environments. Our core focus is delivering practical, high-precision technical solutions that maximize uptime, ensure operational safety, and safeguard capital investment in critical mechanical and electrical assets.

2. CORE CAPABILITIES & SERVICES

Service Discipline	Core Focus Area	Primary Deliverables
01. Engineering Services	Structural, Mechanical & Piping FEED	3D CAD/BIM, Integrity Audits, HAZOP Studies
02. Industrial Maintenance	Predictive & Overhaul Maintenance	Vibration Analysis, CMMS Setup, Shutdown Management
03. Technical Procurement	Global OEM Sourcing & Quality Control	API/ISO Certified Valves, Pumps & Equipment Sourcing
04. Installation & Commissioning	Heavy Rigging & Electrical Integration	Laser Alignment, Hydro-testing, SAT Execution
05. Project Support	On-site Supervision & HSE Monitoring	QA/QC Auditing, Milestone Progress Verification

3. SYSTEMATIC PROJECT EXECUTION METHODOLOGY

PrimeCore operates under a rigorous six-stage delivery model designed to eliminate project risk and enforce high safety and technical quality standards:

- **01 — Understand:** Rapid site assessment, client requirement mapping, and risk analysis.
- **02 — Plan:** Front-End Engineering Design (FEED), resource allocation, and timeline scheduling.
- **03 — Execute:** Supervised technical installation, overhaul, or procurement execution.
- **04 — Test:** Non-destructive testing (NDT), loop testing, and hydrostatic pressure testing.
- **05 — Handover:** Site Acceptance Testing (SAT), client sign-off, and as-built documentation delivery.
- **06 — Support:** Post-installation warranty support, preventive maintenance, and spare parts management.

4. CONTACT & DEMO ENQUIRIES

Primary Address:	Industrial Zone, Ikeja, Lagos State, Nigeria (Demo Location)
General Inquiries:	contact@primecore-demo.com

Telephone / Direct:	+234 (0) 1 234 5678 / +234 (0) 800 PRIMECORE
